**Subject:** A question for Classen 10/081,705

I was looking up Classen 10/081,705 on PAIR for something, and when I looked at the status, it shows the last entry as June 2008 and does not show our Response on 8/1/08 or the Supplement on 8/14/08. Please check to be sure those papers were both actually filed and that we have a return postcard for each. Also see if private PAIR shows more current information. If possible, check with PTO to see why those papers are not on Public PAIR. Maybe the delay is 2 months, but I thought it was more like 2 weeks before filings showed up on PAIR.

This is putting me in a bit of a panic for fear that Tara never filed the papers after I signed them.
